## A Note from the Director

How can it be August? It seems like summer just started. The teachers continue to provide your children with a clean and safe environment along with a wonderful learning experience.

We will be saying good-bye to many friends this month as they head to Kindergarten. We will miss you and hope you come by to visit, even if it is just to wave through the window.

I want to thank all of our families for letting us know when you will be picking up your child. It is our goal to have your child ready when you get here. However, encouraging independent skills sometimes slows the process. 😊  
Thank you for your patience.

Have a great August!  
Julie

## What's happening at NFC?

Looking to change days? If you wish to add or trade a day, please speak with your child's teachers. If you are looking to permanently change your child's schedule, please submit your requests as soon as possible to the office (include the days you would like to change to and when you would like this new schedule to start.) As long as the room counts will allow it, we will do our best to accommodate you.

Enrichment Classes: There will be no enrichment classes this fall. We hope to come up with a plan that allows for these special classes next fall or even this winter/spring, depending of course on being able to follow current and future safety guidelines. Your enrichment instructors miss you and look forward to be able to explore with you again!
